

Paulina Sroka

Senior Product Designer

srokapau@gmail.com · +48 883 649 641 · pausroka.github.io · LinkedIn

8+ years across logistics, ecommerce and healthcare. I work upstream on complex products: shaping information architecture, building design systems together with frontend teams and taking features from discovery to implementation, with AI as part of my everyday process.

Experience

Product Designer · MyZiegler

2025 - Present

- Sole designer in a Scrum team (product owner, developers, QA) on a B2B logistics customer portal: shipment tracking, documents and operational workflows.
- Built a shared UI guide and design system for two products (MyZiegler, myIntertrans) with the whole frontend team: tokens, dark mode and WCAG 2.2 AA accessibility.
- Designed access to multiple company profiles from one account and simplified flows across dense, data-heavy screens.
- Ran user interviews and post-launch tests to guide improvements.

Product Designer · Auronia

2019 - Present

- Sole designer for a German maker of customizable rings, working with the founder, PM and developers.
- Redesigned the Magento store and ring selection journey, and moved design from Photoshop to Figma with a design system (core and semantic tokens) for web and marketing.
- Built an AI workflow (Magnific, Adobe) for product and campaign imagery across thousands of variants, without a photo shoot per variation.

Product Designer · Web Solutions NYC

2023 - 2026

- Garmat USA: moved quoting from spreadsheets to a step-by-step configurator with compatibility rules and live pricing.
- Led design for client store migrations from Magento to Shopware, and built a modular ecommerce framework for Prestige Consumer Healthcare's brands.
- Delivered UX/UI for SkuNexus, Markal, Big Chief and MDMaxx, working with a PM and developers across the US and Poland.

UX/UI Designer · Develocraft

2019

- Designed UX/UI for several client products in a software house.
- Designed a restaurant loyalty mobile app, published on the App Store, together with its admin panel for restaurant staff.

Junior UX Designer · GPD Agency

2017 - 2018

- Designed user interfaces for agency clients across digital product and web projects.

Interactive Designer · Creatuity

2016 - 2021

- Designed interactive and digital experiences for ecommerce clients.

Skills & Tools
